SR SPECIALTY RECREATION

AFTERMARKET SKYLIGHT AND BATH CATALOG

EXCLUSIVE AFTERMARKET DISTRIBUTOR FOR DUO DUO FORM

We're Specialty Recreation...

A family-owned company located in sunny California. We've been in the RV business since 1971 and have been supplying products to the aftermarket for over 30 years.

Having been in the business for almost a half century, we know a thing or two about our customers' needs and wants. We are constantly striving to bring the RV aftermarket new products for today's consumers.

Our main product lines consist of bath products and skylights. We offer one of the largest selections of skylight sizes and colors. With 50% more size options than our competitors, it's easier to find the size you're looking for in-stock. We also offer a full line of replacement bath walls, tubs, and shower pans.

Why Buy From Us?

Glad you asked! Besides being a second generation, family owned company, all of our products are proudly made in the USA. Also, we never underestimate the value of innovative and quality products. Which is why we have Partnered with Duo Form Plastics, an Original Equipment Manufacturer to bring the newest products that consumers are looking for in the RV aftermarket. This means, you're not getting a knock-off or copycat, you're getting the real deal. This makes for a perfect fit and happy customers

Thank You...

For taking a peek at our catalog. Please visit www.specrec.com where you can view our products, set-up a dealer account and begin shopping our full line of products.

SKYLIGHTS

#1 IN REPLACEMENT SKYLIGHTS

WHEN IT COMES TO SKYLIGHTS... WE'VE GOT YOU COVERED!

With 50% more size options than our competitors, we offer over 70 styles in 5 different colors. Our large selection of direct OEM replacement skylights means its easier to find the size you need in-stock. Each skylight is made of thermoformed polycarbonate, they are UV resistant and extremely strong.

SKYLIGHTS

EXTERIOR SKYLIGHT DOMES

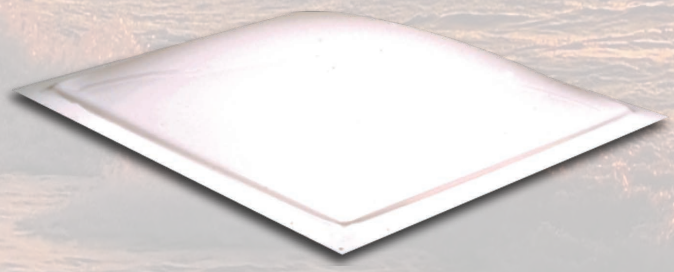

These skylights sit outside the RV allowing gentle light inside. Use a clear skylight for a window to the outside, or a white skylight for more filtered light. A smoke skylight can be used in sunnier climates and cuts down UV rays.

MEASURING A SKYLIGHT

To find the correct size skylight, measure your rough hole dimension. Then compare that to our skylight sizes, which all go by the rough hole dimension.

When measuring for a neo angle skylight, find a 90 degree angle and measure the long(X) and the short(Y) sides then compare your dimensions to our skylight sizes.

INTERIOR SKYLIGHT DOMES

Inner skylights finish the look inside the RV. Choose a solid white polycarbonate inner skylight for softer light and privacy. Choose a clear dome with a white ABS frame (indicated with the letter D after the part #) for more light and a brighter interior space.

Standard Shade

The Standard Shade is an economical solution designed to help reduce heat and light in your RV by reducing the UV effect.

Thermo Shield Shade

The Thermo Shield Shade includes the DUO Heat Shielding Technology to help reflect light rays back off your RV. Designed with edge-to-edge coverage without a perforated curtain, blocking nearly all light coming into the RV. This provides ultimate temperature and light control.
